Montgolfier Balloon (4-Module Envelope)

Cut out the squares and fold the Montgolfier Balloon according the diagrams of 'Montgolfier Balloon (4-Module Envelope)', pages 126-129 of 'Oriland Balloon Ride' book.

The round basket folds from a square with a side that is $\frac{3}{8}$ of the side of the square used for the Montgolfier balloon module. Use red or white color, as you wish.

Overlap by 2 double sections

When you need a balloon envelope made of 4 modules, you may use rectangles that have 1 extra section, which will be used for overlapping. So, you'll need 4 rectangles, 5:8 in proportion each. For instance, you may efficiently use standard format of paper, Letter or A4, to yield a rectangle 5:8, as shown.

The square basket folds from a square with a side that is equal of 3 sections of the short side of the rectangle, as shown. Use red or white, as you wish.
